

Stock Market Sentiment Remains Bullish on Good Crop News

PRICES HARDER ALL ALONG LINE

Not Affected by Action of Democratic Convention.

INDUSTRIALS VERY STRONG

Southern Railway Preferred Develops Sudden Strength—Pacific Mail Rises 2 Per Cent.

NEW YORK, July 9.—The bullish sentiment continued in control of the stock market today, notwithstanding the general disappointment at the outcome of a sound money plank from the Democratic national platform. The weather and crop news were more encouraging. Reading continued prominent for activity and strength, and the railroad list as a whole made improvements of substantial fractions. Southern Railway preferred developed sudden strength, advancing nearly 2 per cent, while the common rose a little less than that point. In the industrial list there was a renewal of bull speculation in National Lead, in which a gain of nearly two points was scored. United States Steel preferred, Tennessee Copper and Iron and Amalgamated Copper were added strong, although the advances were less than a point. Pacific Mail rose over 2 per cent, and an almost equal advance was scored by Pacific Coast. The market at the beginning of the second hour was strong and confident on a fairly active movement of a half holiday. Government bonds unchanged. Other bonds were firmer.

NEWS AND GOSSIP OF STOCK MARKETS.

WASHINGTON.

NEW YORK.

There is no indication of higher rates for loans in the course of the next few weeks, but it is probable that later on in the season the demand on this center for funds will be heavy enough to bring about a better price for money. The percentage of profit for the banks in the present money market is extremely small, and bankers would therefore welcome a higher interest rate. At present the banks are much more liberal in the matter of collateral than they have been in many months, and January 1 at a low rate of interest with the collateral made up entirely of industrial securities have been reported.

The belief is growing that the provisions made for the retirement of Reading second preferred will be put into effect, and it is thought that this will work out to the benefit of the common stock.

The reported movements of currency this week indicate a gain in cash held by the banks of over \$9,000,000. Receipts from the interior exceeded disbursements by over \$1,000,000. Receipts of new gold were \$4,900,000, including \$83,200 from New York assay office checks, \$2,888,000 from Philadelphia transfers, \$1,337,500 from Seattle assay office checks on account of Klondike gold. Banks gained on regular subtreasury operations.

The United States Realty and Improvement Company has applied to the New York Stock Exchange to list \$12,000,000 twenty-year convertible debenture bonds of 1924 and \$16,500,000 capital stock.

WOULD ANNUL MARRIAGE.

WITHDRAWS DIVORCE SUIT.

Roy Hoover has abandoned his suit against Minnie M. Hoover for divorce and instituted proceedings against her for annulment of marriage. Mr. Hoover says he and the defendant were married in Alexandria November 15, 1930. At the time he says he was twenty-one years old, and on the day mentioned met the defendant, then Minnie McGuire, and accompanied her to a matinee performance at a local theater. He and the woman, he says, became intimate. They left the theater, he says, to go to a hotel. He says he accepted the banner of the woman to get married. After the marriage ceremony, Hoover says he and the woman continued their drunken debauch. Next day, when he realized what he had done, he says he refused to live with the defendant. Albert Silvers is named as counsel for the complainant.
